

TOOL

Quiz online of wildfires

Title : Quiz online

Developed by : AFPCNT

Topics : Wildfires

Website : <https://afpcnt.org/2023/03/30/le-quiz-feu-de-foret-pour-enfants-est-en-ligne/>

Description

A Quiz that helps to acquire some key knowledge and right reflexes at an early age.

This Quiz has been designed for children in the 3rd cycle (CM1-CM2-6ème). It is also available to parents and teachers. This 24-question quiz tests children's knowledge of forest/vegetation fires and the associated risks.

It also exists a pdf version.

Duration

30 min

Resources needed

- To use the tool, we need:
- Computer and projector;
 - Internet connexion.

Age

Primary School : 5 to 11
years old

Relevance to CRISEPAC Objectives

This activity is part of the CRISEPAC project, which enables students to learn about wildfire and how to behave or even protect against it.

Expected outcomes

- Prevention of natural risk;
- Vocabulary and knowledge related to a fire;
- Raise an awareness of natural risk in its territory;
- Understanding how to react at a similar event;
- Safety about themselves and others.

TOOL

Quiz online of wildfire

Management

The teacher must be guided by the application. All the necessary information and answers to questions are in the software.

The teacher only acts as a guide.

Risk prevention

This tool teaches students more about fires, their causes and consequences, and how to behave.

Others

Weaknesses

The quiz serves as an evaluation tool for the class. It is up to the teacher to prepare lessons on the subject before using the quiz.

Strengths

- Playful activity;
- Interactive tool;
- Participative.

Possible adaptations

The quiz could be a way to evaluate the pupils.

Climate change

Rising temperatures, particularly in summer, increase the risk of forest fires due to repeated heatwaves and droughts.

Methodologies

Interactive online quiz about wildfires could be presented in different ways:

- Whole class test;
- Individual answers on a slate or by raising your hands.

On the other hand, for the most advanced classes, the quiz can also serves as an introduction to the lesson.

Developed by the Association Française pour la Prévention des Catastrophes Naturelles et Technologiques (AFPCNT), in collaboration with the Entente Valabre and the Pôle Safe Cluster.
