

TOOL 5

Sparkly School House

Title : Sparkly School House

Developed by : The National Fire Protection Association

Topics : Fires

Website : sparkyschoolhouse.org/

Description

The tool provides valuable resources (lessons plans, videos, worksheets), as well as interactivity exercises or group activities to educate children on fire safety.

Duration

not specified

Resources needed

At least one computer with an internet connection, in order to be able to access the resources.

Age

Suitable for all ages

Expected outcomes

The usage of this tool is expected to not only educate students on fire prevention measures, but also on how to respond properly in a fire situation, allowing them to explore and learn about fire safety in a safe, interactive environment.

Climate change

The resources provided by the tool contribute to environmental awareness and education, which are essential components in addressing climate change. The educational materials available incorporate topics related to climate change.

TOOL 5

Sparkly School House

Risk prevention

The tool contributes to risk prevention by equipping children and families with the information and tools they need to ensure safety and be prepared in the event of a fire emergency.

Management

The tool is designed to be user-friendly for both teachers and kids, eliminating the need for special management by a teacher.

Others

Relevance to CRISEPAC Objectives

The tool is relevant to the CRISEPAC objectives, since it utilises diverse educational resources catered to the teaching and learning needs of youth to raise awareness about the prevention and response measures associated with natural hazards.

Possible adaptations

Utilise these valuable resources (lessons plans, videos, worksheets) when discussing relevant topics through interactivity exercises or group activities.

Weaknesses

The resources provided on the website, namely educational videos, worksheets, and so forth, are solemnly available in English, requiring an adaptation or translation as necessary.

Strengths

The tool not only educates students on fire prevention measures, but also on how to respond properly in a fire situation, allowing children to explore and learn about fire safety in a safe, interactive environment.

Methodologies

Sparkly School House offers a variety of resources for educators, such as:

- Lesson plans;
- Educational videos;
- Engaging digital books;
- Free printable activities.

Additionally, on sparkly.org, kids can explore and learn about fire safety in a safe, interactive environment, by watching fire safety videos, playing dynamic games and exploring activities. It also provides resources for parents to reinforce fire safety at home and plans to keep loved ones safe, including a home escape plan worksheet, a smoke alarm checklist and a fire safety at home anchor chart kit.
